

44/4, Sept. 1907

Bude, S.O. Cornwall.

13, NORHAM GARDENS,

OXFORD.

Dear Jacobs

I am so

worried to hear that you
and Mrs Jacobs are knocked
out of your old enemy.
It is too bad but I hope by
this time you are both
better. The weather has
been so glorious (as I see
it has been the same with
you) that you should
soon shake it off. I
am desolated to think
that I may miss you.
I have promised to go to

The Congress of Hygiene at
Berlin leaving Saturday
the 22nd. Nuttall, Maunder
& a number of friends are
going and I thought it
would be a good opportunity
to see the new medical
side of the place. They say
the Virchow Hospital is
wonderful. His Jr has
been called to succeed
Legden, a first class
appointment. We are
having a very good time
here. We have had such
a busy summer that
Mrs Oster thought she
would prefer a few weeks
of silence in the Highlands

We miss Colenso and I am sorry not
to have ten days with Mr Phipps but this
is a delightful spot, the bathing excellent
& the golf links very good. I have put Rover
out the hands of the Pro and we are now
playing nine holes every afternoon. The
fishing is good, Isaac says, but the fish
do not bite! Tom McNamee's wife is sad
but his has got a good girl & they seem very
happy. I am reviewing at articles for the
System - the first two volumes sold very well.
The Oxford Press is issuing the work here
& I have T. McNamee on the outside &

have called it "a System of Medicine"
We must stir up the brethren about the Congress
next year. I hope Fuller will come over. I could
arrange a series of meetings for him & self.
Maguire did the same in Paris & His Jr. in
Berlin or Leyden. It would stir up interest
Tell Mrs. Jackson that my char is a delegat.
It's in a speech corner, with a reading lamp above
my head, & I am keep late hours in it.
I have been getting some treasures lately -
Let us have a line & say that you are better -
sincerely yours
Wm Oster
